Course Description

This course introduces intermediate quantitative tools for strategic and data-driven decision making in business. Topics include probability, hypothesis testing, statistical inference, linear regression, multiple regression, logistic regression, and related applications. In addition to developing a solid foundation in statistical theory, students will gain hands-on experience with *R*, an open-source statistical programming language widely used in industry and research. Emphasis will be placed on learning how to effectively interpret statistical results and analyze real-world data.

Course Textbook

David M. Diez, Mine Çetinkaya-Rundel, and Christopher D. Barr. [OpenIntro Statistics](#) (Fourth Edition)

Course Goals

The learning goals for this course are as follows:

- Recognize the importance of data collection, identify limitations in data collection methods and other sources of statistical bias, and determine their implications and how they affect the scope of inference.
- Use statistical software to summarize data numerically and visually, and to perform data analysis.
- Have a conceptual understanding of the unified nature of statistical inference.
- Apply estimation and testing methods to analyze single variables or the relationship between two variables in order to understand natural phenomena and make data-based decisions.
- Model numerical response variables using a single explanatory variable or multiple explanatory variables in order to investigate relationships between variables.
- Interpret results correctly, effectively, and in context without relying on statistical jargon.
- Critique data-based claims and evaluate data-based decisions.

Roster Verification

In order to be counted as having attended class during the roster verification period, you must complete at least one quiz by August 27, 2025. If I mark you as not-attending for a course, you will receive a 'W' grade. Please contact me for more information or if you believe you were marked as not-attending in error.

UWG Email Policy

All UWG students are provided a MyUWG email account through Gmail. This is considered the official method of communication between the university and students. Students are responsible for checking their email regularly.

Grading

- **Quizzes:** There will be 25 quizzes administered throughout the term, each worth 1.25 points
 - Of these, 5 quizzes (6.25 points) are provided as bonus opportunities, allowing students to earn extra credit
 - Quizzes will consist of 5–10 multiple choice questions and will cover material from that day’s lecture.
- **Exams:** There will be 4 exams and a comprehensive final, each worth 15 points
 - The final exam is mandatory; failure to complete it results in an automatic course failure
 - If $Final > 0.6$, it may replace your lowest midterm score **if it is higher**; otherwise, it counts as any other exam

$$Exams = \begin{cases} 15 \times \sum_{e=1}^5 Exam_e & \text{if } Final \leq 0.6, \\ 15 \times \left(\sum_{e=1}^4 Exam_e - \min(Exam_e) \right) + 30 \times Final & \text{if } Final > 0.6. \end{cases}$$

- The overall grade is computed as:

$$Overall\ Grade = Exams + 1.25 \times \sum_{q=1}^{25} Quiz_q$$

- At the professor’s discretion, final grades may be scaled up only if the course mean falls below 85

Evaluation Policies

- All assignments will be administered in Course Den via a LockDown Browser (or equivalent software)
 - Must be taken alone without any other external assistance
 - Requires a computer with webcam and microphone
 - One attempt per assignment
 - Cannot re-enter an assignment after exiting
 - Any failure to meet LockDown Browser requirements or any suspected cheating/suspicious behavior will result in a zero on the exam and may lead to course failure and expulsion
- Quizzes
 - Available on the “Due” date and will remain open for 7 days
 - Once begun, must be completed within 30 minutes
- Exams
 - Available only on the Due date
 - Once begun, must be completed within 75 minutes (or 120 for the final)
- Late assignments will receive zero points
 - Extensions on assignments will only be considered if accompanied by a letter from a medical professional, student services, the dean or other relevant UWG employees
 - Requests for early access to quizzes or exams will be evaluated on a case-by-case basis
